Collection 2027

SIX KITCHENS · ONE QUIET STANDARD

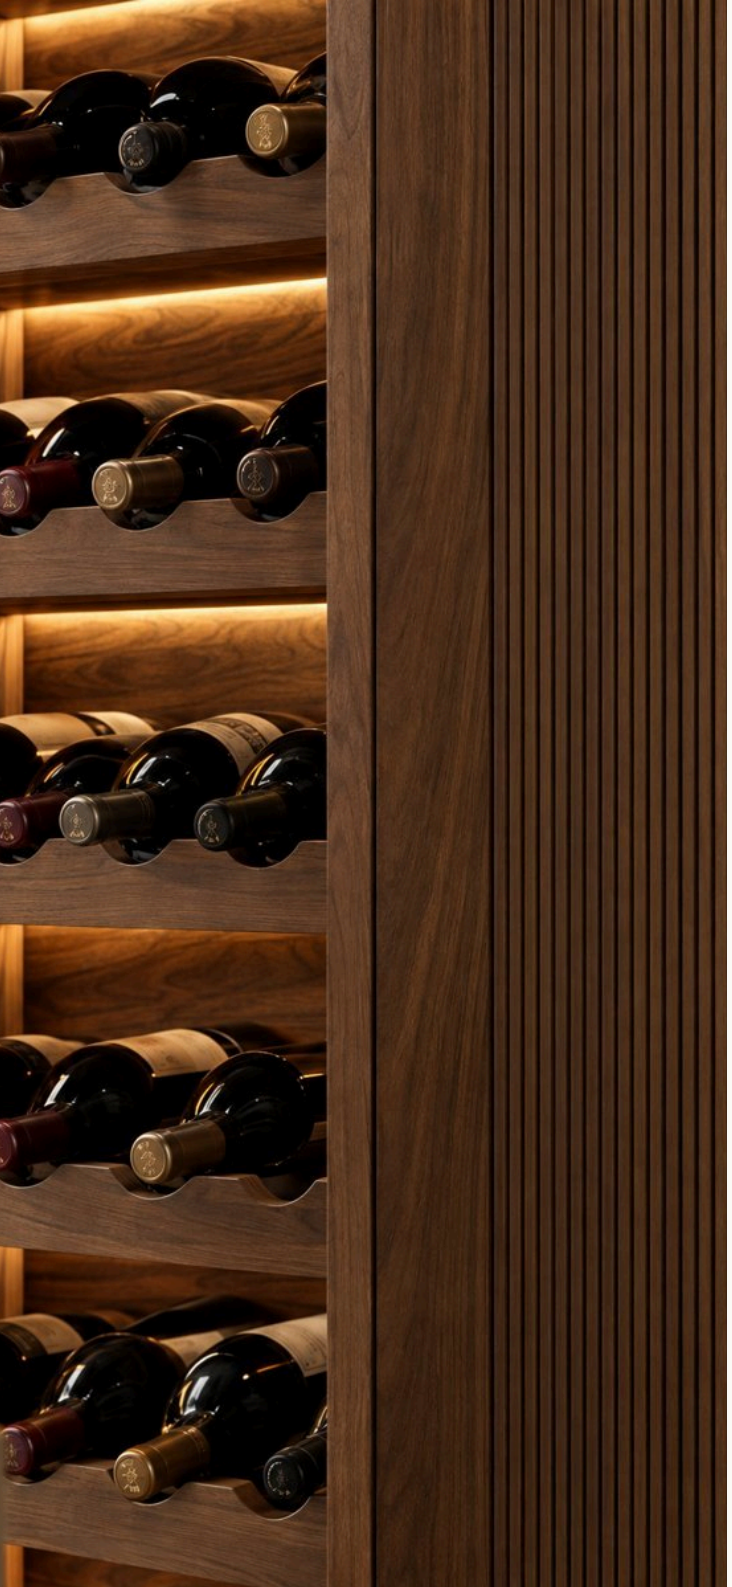

OUR PHILOSOPHY · فلسفتنا

“A kitchen should speak quietly.”

We believe a kitchen should speak quietly. It should be beautiful on the first day and better on the three-thousandth. It should hide its engineering and reveal its materials. It should be lit like a home, not a showroom. And it should belong to the people who live in it — not to a trend.

نؤمن إن المطبخ لازم يتكلم بهدوء. يكون جميل في أول يوم وأجمل في اليوم الثلاثة آلاف. يخفي هندسته ويُظهر خاماته. يُضاء كبيت، مو كمعرض. ويكون ملك اللي يعيشون فيه، مو ملك الموضة.

Six kitchens, six characters.

NORIA 2027 is six kitchens, each with its own character, its own client and its own way of using light, material and shadow. From LINEA, our calm everyday kitchen, to AUREA, our engineered flagship, every model shares the same German movement technology, the same European surfaces and the same quiet standard of detail.

LINEA لينيا

Choose the level. Keep the standard.

Every line shares the same carcase quality, the same Hettich movement family and the same design restraint. What changes is material richness, handle philosophy and the depth of engineering.

NORIA ESSENTIAL

نوريا إسنشال

The premium entry. Clean, warm and easy to live with — designed for apartments, developer projects and family homes.

مستوى الدخول الفاخر. نظيف ودافئ وسهل العيش معه — للشقق ومشاريع المطورين والبيوت العائلية.

LINEA

Apartments · developer projects · first homes

TERRA

Family villas · warm contemporary homes

NORIA PREMIUM

نوريا بريميوم

Architecture and precision. Shadow-gap handleless design, marble-look feature doors, lit glass and fine metal.

العمارة والدقة. تصميم بدون مقابض بفواصل ظل، أبواب بمظهر الرخام، زجاج مضاء ولمسات معدنية رفيعة.

OMBRA

Urban apartments · modern villas · show units

VELLUTO

Design-led villas · boutique residences

AUREA

Flagship villas · palaces · penthouses

YOUR PALETTE · ألوانك

Every kitchen, *any palette.*

The moods in this book are starting points, not limits. Each NORIA model can be built in hundreds of European decors — solid colours, real-wood reproductions, stone, marble, concrete, metal and textured surfaces — from leading surface makers including EGGER, CLEAF, SAVIOLA and SM'art.

The design of the kitchen stays the same; the palette becomes yours. Our designers will help you build it with real samples, in daylight, in our showroom.

الأجواء اللي في هذا الكتالوج نقطة بداية مو حدود. كل موديل من نوريا ممكن يتنفذ بمئات الديكورات الأوروبية: ألوان سادة، أخشاب، حجر، رخام، خرسانة، معادن وأسطح بملمس. التصميم يبقى نفسه، والألوان تصير لك.

LINEA

لينيا *Italian · the line*

The beauty of the line.

LINEA

The beauty of the line.

LINEA begins with a single, honest gesture: a straight line drawn with care. Calm fronts, a pale wood niche that glows at night, a block of stone that anchors the room. Nothing shouts, nothing is missing. It is the kitchen you stop noticing — because it simply works, every day, for years.

لينيا تبدأ من خط واحد صادق مرسوم بعناية. واجهات هادئة، تجويف خشبي فاتح يضيء في الليل، وكتلة حجر تثبّت المكان. لا شيء يصرخ ولا شيء ناقص. هو المطبخ اللي تنسى إنه موجود، لأنه ببساطة يشتغل كل يوم ولسنين.

CLARITY | CALM | EVERYDAY

MADE FOR

Apartments · developer projects · first homes

LINEA *in detail*

01 The glowing niche

Pale wood shelves lit from within — the warm heart of a calm kitchen.

02 Stone that anchors

A solid stone-look island with mitred edges and a flush cooktop.

03 One slim line

A single dark pull on the tall unit; everywhere else, a quiet integrated grip.

LINEA *in three moods*

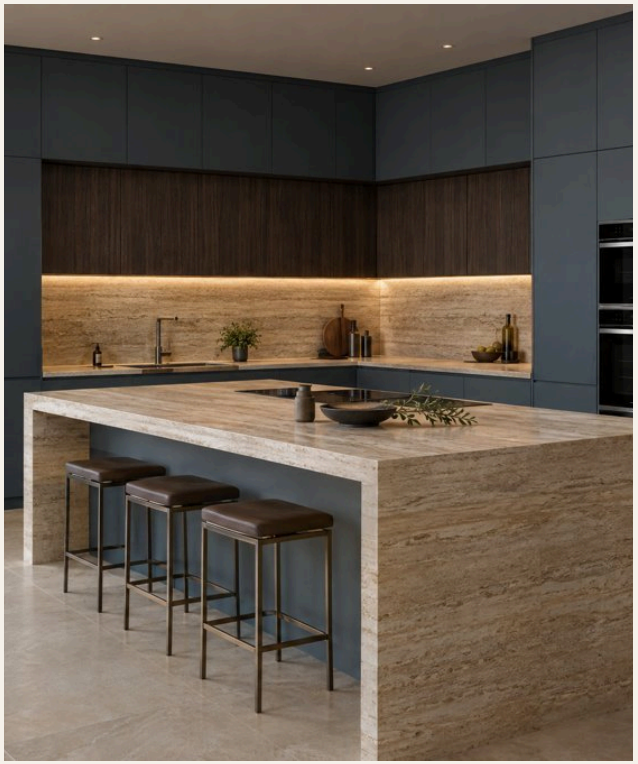

Same design, three palettes. Light, warm or bold — and countless others built with you from real samples.

TERRA

تيرا *Italian · the earth*

Warmth you can touch.

TERRA

Warmth you can touch.

TERRA is the kitchen of the family home. Walnut frames the everyday, travertine catches the afternoon sun, and glass cabinets show what you love. Warm without becoming rustic, rich without weight — a room that invites you to stay a little longer after dinner.

تيرا مطبخ البيت العائلي. خشب الجوز يحتضن التفاصيل اليومية، الترافرتين يلتقط شمس العصر، وخزائن زجاجية تعرض اللي تحبه. دافئ بدون ما يصير ريفي، وغني بدون ثقل: مكان يخليك تقعد شوية أطول بعد العشا.

WARMTH | FAMILY | NATURAL

MADE FOR

Family villas · warm contemporary homes

TERRA *in detail*

01 A column of walnut

The wine column, framed in natural walnut and lit bottle by bottle.

02 Glass that shows

Bronze-framed glass cabinets with warm light over a travertine backdrop.

03 The warm recess

A recessed pull in champagne metal — touch, not hardware.

TERRA *in three moods*

Same design, three palettes. Light, warm or bold — and countless others built with you from real samples.

OMBRA

أومبرا *Italian · the shadow*

Architecture made of shadow.

OMBRA

Architecture made of shadow.

OMBRA works with what most kitchens hide: shadow. Dark planes, burnt wood and deep grip lines are cut against one pale block of stone. The result is not a black kitchen but a piece of architecture — calm in daylight, dramatic at night.

أومبرا تشتغل باللي تخفيه أغلب المطابخ: الظل. أسطح داكنة، خشب محروق، وخطوط مقابض عميقة، تقابلها كتلة حجر فاتحة وحدة. النتيجة مو مطبخ أسود، بل قطعة عمارة: هادئة في النهار ودرامية في الليل.

CONTRAST | SHADOW | URBAN

MADE FOR

Urban apartments · modern villas · show units

OMBRA *in detail*

01 Burnt wood, warm light

Open shelves in dark wood, lit from below like a gallery.

02 One pale monolith

The stone return with a continuous waterfall edge.

03 The shadow gap

A black grip channel with a hidden line of light — no handles at all.

OMBRA *in three moods*

Same design, three palettes. Light, warm or bold — and countless others built with you from real samples.

VELLUTO

فيلوتو *Italian · velvet*

Luxury, measured to the millimetre.

VELLUTO

Luxury, measured to the millimetre.

VELLUTO is luxury that does not need to raise its voice. Cashmere-soft fronts, a single group of marble doors, smoked glass that glows, brass drawn as a fine line. Every element is placed with precision, and nothing is there for decoration alone.

فيلوتو — يعني المخمل — فخامة ما تحتاج ترفع صوتها. واجهات ناعمة كالكشمير، مجموعة أبواب رخامية وحدة، زجاج مدخن يضيء، ونحاس مرسوم كخط رفيع. كل عنصر في مكانه بدقة، وما في شي موجود للزينة بس.

PRECISION | SOFTNESS | GLOW

MADE FOR

Premium villas · luxury apartments · hospitality

VELLUTO *in detail*

01 Marble meets brass

A marble-look door with a precision recessed brass profile.

02 Smoked glass

Slim black frames, walnut shelves and soft concealed light.

03 The brass moment

A brushed brass tap over book-matched stone.

VELLUTO *in three moods*

Precision · Softness · Glow

VERDE

فيردي *Italian · green*

One gesture, remembered.

VERDE

One gesture, remembered.

VERDE is built around a single idea: continuous bands of texture and light running across deep green. One hero gesture, repeated with calm discipline, and nothing competing with it. It is the kitchen guests remember — and the one its owners never tire of.

فيردي مبني على فكرة وحدة: أشرطة مستمرة من الملمس والضوء تعبر الأخضر العميق. حركة بطولية وحدة تتكرر بهدوء، وما في شي ينافسها. هو المطبخ اللي يتذكره الضيوف، وما يمل منه أصحابه.

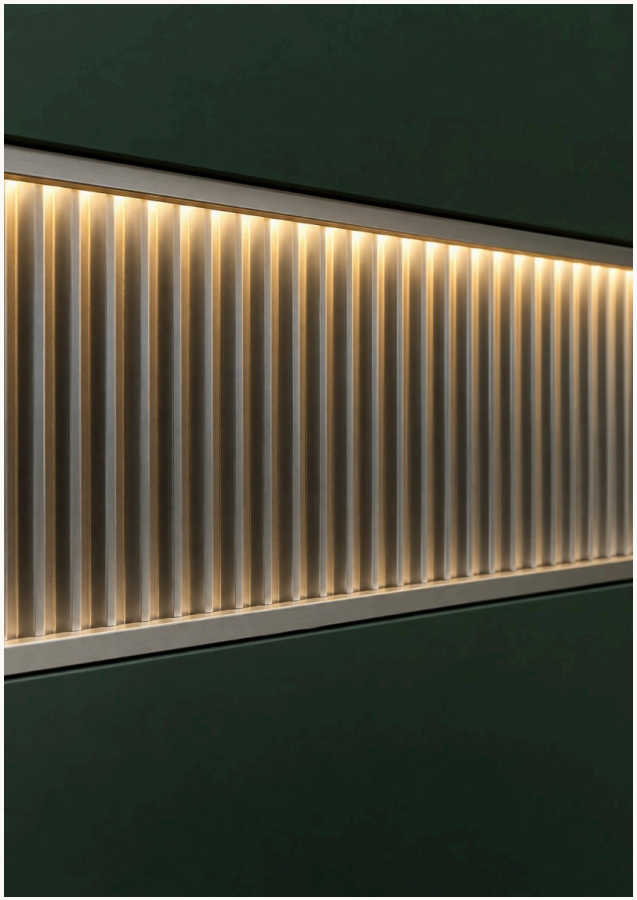

IDENTITY | LIGHT | BOUTIQUE

MADE FOR

Design-led villas · boutique residences

VERDE *in detail*

01 The hero band

Fluted texture washed by light — the gesture VERDE is known for.

02 Velvet green

Deep matt fronts that open with a touch.

Identity · Light · Boutique

AUREA

أوريا *Latin · golden*

The gold is in the engineering.

AUREA

The gold is in the engineering.

AUREA is our flagship, dressed in fluted walnut. Most of its luxury is invisible: fronts without handles, appliances set flush into the wood, light hidden in every recess, and one material flowing from the wall to the sculpted island without a break. What makes AUREA golden is not decoration — it is the precision you feel each time you touch it.

أوريا هو موديلنا الرائد، ولابس خشب الجوز المخدد. أغلب فخامته مخفية: واجهات بدون مقابض، أجهزة مدمجة بنفس مستوى الخشب، ضوء مخبأ في كل تجويف، وخامة وحدة تنساب من الجدار إلى الجزيرة المنحوتة بدون انقطاع. اللي يخلي أوريا ذهبي مو الزينة، بل الدقة اللي تحسها كل مرة تلمسه.

CONTINUITY | CONCEALMENT | CRAFT

MADE FOR

Flagship villas · palaces · penthouses

Why walnut.

For AUREA we chose walnut because it is the one material that feels warm before you even touch it. Its grain never repeats. Every door is cut from the same story and book-matched, so the figure flows from panel to panel across the whole wall — one living surface instead of many pieces.

Walnut changes with the day. In morning light it reads honey and amber; at night, under warm 2700K light, it deepens to chocolate and bronze. The kitchen changes its mood from breakfast to dinner without anything being changed at all.

Beside it we placed a pale, quiet stone and a single matte charcoal note. Wood is warm, stone is calm, charcoal gives depth — together they feel balanced, like shade in a garden at noon. Brushed bronze is the bridge between them: a metal with the same warmth as the wood, drawn as one thin line at the island's base and in a single long pull.

Finally, the flutes turn wood into architecture. Light grazes each groove and draws soft, rhythmic shadows that move as you walk past — a quiet animation no flat surface can give.

ليش اخترنا الجوز

اخترنا خشب الجوز لأوريا لأنه الخامة الوحيدة اللي تحس بدفاها قبل ما تلمسها. عروقه ما تتكرر أبداً، وكل باب مقطوع من نفس القصة ومركّب بشكل متطابق، فتنساب العروق من لوح للثاني على طول الجدار كأنه سطح واحد حي.

الجوز يتغير مع اليوم: في الصبح عسلي وكهرماني، وفي الليل تحت الإضاءة الدافئة يصير بلون الشوكولاتة والبرونز. المطبخ يغيّر مزاجه من الفطور إلى العشا بدون ما يتغير فيه شي.

وجنبه حطينا حجر فاتح هادئ ولمسة وحدة من الفحمي المطفي. الخشب دافئ، والحجر هادئ، والفحمي يعطي عمق؛ ومع بعض يعطون توازن مثل الظل في حديقة وقت الظهر. والبرونز المصقول هو الجسر بينهم: معدن بنفس دفء الخشب، مرسوم كخط رفيع في قاعدة الجزيرة وفي مقبض طويل واحد.

والتخديد يحوّل الخشب إلى عمارة: الضوء يمر على كل خط ويرسم ظلال ناعمة تتحرك وأنت تمشي جنبه، حركة هادئة ما يعطيها أي سطح مسطح.

HETTICH

Inside every NORIA kitchen.

داخل كل مطبخ من نوريا

The beauty of a kitchen is what you see. Its quality is what you feel — thousands of times a year, every time a door closes, a drawer glides or a flap lifts. That is why every NORIA kitchen moves on Hettich, the family-owned German maker of furniture fittings from Kirchlengern, and our hardware partner across all three lines.

جمال المطبخ هو اللي تشوفه، وجودته هي اللي تحسها آلاف المرات في السنة: كل باب يتسكّر، كل درج ينزلق، وكل باب علوي يرتفع. عشان كذا كل مطبخ من نوريا يتحرك بإكسسوارات هيتش الألمانية، شريكنا في كل الفئات.

EN 15570	EN 15338	70 kg	165°
HINGES · LEVEL 3	DRAWERS · LEVEL 3	MAX. DRAWER LOAD	WIDEST DOOR OPENING

Doors that close themselves — softly.

Sensys 110° · Silent System

The hinge in every NORIA door. A soft-close damper is built invisibly into the hinge itself, and its unusually wide self-closing angle means the door almost closes on its own.

35°	±2 mm	15–24 mm
SELF-CLOSING ANGLE	SIDE ADJUSTMENT	DOOR THICKNESS

- Tested to EN 15570, Level 3 — the highest durability class
- 3-way adjustment: side ±2 mm, depth +3/−2 mm, height on the plate
- Nickel finish, or obsidian black for dark and glass interiors
- Clip-on assembly; doors removable without tools

Sensys 165° wide-angle · zero protrusion

For larders, tall units and pull-outs behind doors. The door swings almost flat while the hinge stays clear of the opening — nothing blocks a drawer or basket.

165°	0 mm	≤ 32 mm
OPENING ANGLE	PROTRUSION	DOOR THICKNESS

- Integrated Silent System soft-close
- All visible parts in obsidian black on premium lines
- Opening angle can be limited where walls are close
- Ideal behind tall-unit inner drawers and larder pull-outs

Slim walls. Deep storage. Your colours.

AvanTech YOU drawer system

Slim, double-walled metal drawers that let the front and the material speak. Configured per kitchen: heights, colours and inner organisation.

5	3	Inlay
DRAWER HEIGHTS	SIDE COLOURS	DESIGN OPTION

- Drawer heights 77 / 101 / 139 mm; pot-and-pan 187 / 251 mm
- Silver, pure white or anthracite sides
- Inner drawers behind doors and inside pot drawers
- Walnut or anthracite cutlery and spice inserts

AvanTech YOU Illumination

Light that turns on with the drawer. Integrated LED strips run along the drawer side and switch automatically — rechargeable, with no wiring inside the cabinet.

Auto	USB	0
ON WHEN OPENED	RECHARGEABLE	CABLES NEEDED

- Perfect for larder towers and deep inner drawers
- Warm light that matches NORIA's 2700–3000K palette
- Also available for waste-sorting drawers
- Standard on Signature, option on Premium

Full extension. Total silence. Up to 70 kg.

Actro YOU · Actro 5D runners

Concealed under the drawer, so all you see is the front. Synchronised profiles keep heavy pot drawers level and silent, even when fully loaded.

10/40/70	5-way	100%
LOAD CLASSES (KG)	FRONT ADJUSTMENT	FULL EXTENSION

- Integrated Silent System soft-close
- Load capacity to EN 15338, Level 3
- Tool-less adjustment: height +3, side ±1.5, tilt +4 mm
- Multi-synchronisation for extra-wide handleless fronts

Push to open Silent · Easys

For handleless NORIA fronts. A light touch opens the drawer and it still closes softly. Easys adds electromechanical power — even for an integrated fridge door.

Touch	Soft	4–8 s
TO OPEN	TO CLOSE	EASYS AUTO-CLOSE

- Push to open Silent: mechanical, no power required
- Easys: opens drawers and fridge doors with a gentle press
- Overcomes the fridge’s magnetic seal; closes automatically
- Standard on VERDE and AUREA, option on all lines

Doors that lift, fold and disappear.

Lift Advanced flap fittings

Wall units without swinging doors. Gas-spring fittings hold the flap at any height and close it with a cushioned stop.

4	1	Adj.
MOVEMENTS	DRILLING PATTERN	OPENING FORCE

- HF folding · HK upward · HL lifting · HS swing-up
- Opening force adjusted to the weight of each front
- Front adjustable in three dimensions
- Ideal above hobs, coffee stations and in tall walls

WingLine L folding doors

Open a whole coffee station or pantry wall in one movement. The doors fold to the sides with minimal protrusion, so drawers behind open freely.

25 kg	2400	600
DOOR WING WEIGHT	MAX. HEIGHT (MM)	WING WIDTH (MM)

- Push to move / Pull to move, with or without handles
- Soft opening and closing
- Panorama access to the whole cabinet
- Pairs with pocket-door niches on AUREA

Everything in view, top to bottom.

Tall-unit larder pull-outs

The pantry comes to you. Swivelling and full-extension larder fittings bring every shelf forward, so nothing is lost at the back.

100 kg	Both	Soft
LOAD (BY MODEL)	SIDE ACCESS	CLOSE

- Iseo swivelling larder: shelves glide out as the door opens
- Full-extension tall pull-outs with integrated Silent System
- Variable grid and basket levels, anthracite finish
- Combine with LightTower illuminated inner drawers

Pocket & appliance niches

A breakfast or coffee station that vanishes. Doors slide back into the cabinet sides; light switches on as you open them.

Hidden	Lit	Walnut
WHEN CLOSED	WHEN OPEN	INTERIOR

- Pocket doors slide fully into the cabinet sides
- Space for coffee machine, toaster and daily cups
- Heat and ventilation planned on the shop drawing
- Signature line standard; option on Premium

No dead corners. No visible bins.

Corner solutions

The blind corner becomes the most useful cabinet in the kitchen. Shelves swing out completely and independently, with soft-close.

2	100%	Soft
SWING-OUT TRAYS	CORNER USED	CLOSE

- LeMans-type swivel trays for L-shaped kitchens
- Corner pull-out systems for narrow fillers
- Anti-slip mats, anthracite finish
- Load up to 36 kg per pull-out (base units)

Waste sorting & narrow pull-outs

Sorting built into the drawer under the sink, opening with a touch or a foot. Narrow 150–300 mm gaps become bottle and spice pull-outs.

2–3	Foot	150 mm
SORTING BINS	PEDAL OPTION	NARROWEST PULL-OUT

- Waste sorting integrated in drawer pull-outs
- Push to open, foot pedal or electromechanical opening
- Lario bottle and spice pull-outs for narrow units
- Cleaning-product pull-out for under-sink cabinets

The newest movement, already in NORIA.

Hettich's latest launches from interzum 2025, KBIS 2026 and Milan Design Week 2026 follow one idea — furniture that transforms. We have selected the ones that make the most sense in a NORIA kitchen.

NEW · AWARD-WINNING

FurnSpin · turn & swivel

A cabinet module that rotates on its own axis: closed and calm one moment, an open lit bar or display the next. Now shown by Germany's leading kitchen makers in island units.

- Turns furniture from closed to open in one movement
- FurnSpin Illumination: integrated light (KBIS 2026)
- Ideal as a coffee or drinks module in AUREA and VERDE islands

NEW GENERATION

Illumination · colour-changing

The new AvanTech YOU Illumination generation adds changing light colours and an extra-warm white — and now works in wooden drawers too. "No plug, just play."

- Extra-warm white to match walnut and stone
- Changing light colours for accent drawers
- For metal and wooden drawers; no wiring

NEW

Avosys · SAH 500 · Evisys

Three quiet upgrades: a slim hinge for glass and mirror doors, a heavy-duty bracket that makes tall units appear to float, and a guiding hinge that closes fridge doors softly.

- Avosys: minimal hinge for glass display doors (VELLUTO)
- SAH 500: floating wall-hung tall units
- Evisys with Silent System: soft-closing integrated fridges

HANDLE PHILOSOPHY

Grip, recess, shadow — or nothing at all.

Slim pulls in LINEA, warm recesses in TERRA, shadow gaps in OMBRA, precision profiles in VELLUTO, push-to-open in VERDE and hidden systems in AUREA — each matched to the right Hettich opening technology.

CONSTRUCTION

Built for the Gulf, detailed like furniture.

18 mm carcases, edges matched to the decor, the 32 mm system drilling that Hettich fittings are designed for, and adjustable shelves. Ventilation, heat clearances and moisture zones are checked on every shop drawing.

Same Hettich family. Three levels of comfort.

Any upgrade can be added to any line — the cabinet stays the same.

FOR PROJECTS & DEVELOPERS

From concept to handover.

من الفكرة حتى التسليم

One brand, three lines and six kitchens make it simple to specify NORIA across a whole development — from the apartments to the penthouse.

01	Concept and 3D visualisation
02	Real sample boards for approval
03	Shop drawings coordinated with appliances & MEP
04	Show unit for developer projects
05	Production, delivery and installation
06	Handover, adjustment visit and after-sales care

Images are design visualisations. Colours are indicative — physical samples prevail. Hettich and its product names are trademarks of Hettich; EGGER, CLEAF, SAVIOLA and SM'art are trademarks of their respective owners.
